

Nifex

Chemical stripper for electroless nickel layers

Nifex is a cyanide-free, alkaline stripper that dissolves high-phosphorus-content, electroless nickel layers from iron, steel, copper and brass by dipping.

Properties and benefits

- Stripping without attack of the base material
- Specially developed for high phosphorous containing nickel layers

Application area

- Nickel/Phosphorous iron, steel, copper and brass

Technical Data

Electrolyte properties	
Parameter	Range
Temperature	80 – 98 °C
Agitation	Recommended
Stipping rate	Approx. 6-12 µm/hour depending on the phosphorous content

Products available

6014000	Nifex Part A
6014100	Nifex Part B
